THE TARIFF.

Hill Defends the President And His Letter.

THE INCOME TAX THE

Only Bad Feature in the Bill as Passed by the House.

WASHINGTON, July 24.—The galleries of the senate chamber are crowded. Vilas is expected to defend the president. Hill is also billed for a speech.

Harrison, manager of the tariff bill, called on the conference report.

Hill was at once recognized. Hill said he agreed with Gorman that the democratic party was in the midst of a great crisis and that the house had passed a tariff bill which excepting the income tax feature, seemed to meet with general approval. As passed by the senate the bill violated party pledges. It would do no good to obstinately adhere to its position, as the house showed no signs of yielding. The president's letter expressed sentiments that were his own. The letter was private to Wilson and violated no clause of the constitution. All democratic organizations endorsed the Wilson bill while the senate bill met only with signs of hearty disapproval.

HILL NOT IN IT.
The democratic senators intend to hold a conference at 3 o'clock today to which Hill is not invited.

LONDON, July 24.—Advices received here leave little doubt but that the William Arctic expedition is lost.

Quickly Expired.
ST. LOUIS, July 24.—Augusta Koch, 71 years old, wrapped herself in a coal oil saturated sheet and then set it on fire. She quickly expired.

The Vigilant Won.
ROCHESTER, N. Y., July 24.—The Vigilant won today's twelfth fifty mile race with the Britannia. The wind was fresher than during any preceding race.

A Slight Misunderstanding.
TEXARKANA, Tex., July 24.—The collision between the north and south bound Texas Pacific cannon ball trains was caused by a misunderstanding.

Eight persons were killed.

The Illinois Senatorship.
CHICAGO, July 24.—W. W. Mason has agreed to withdraw from the candidacy for the United States senatorship in favor of Joseph Medill, editor of the Chicago "Tribune" the "Springfield Journal" declares that Medill has refused to allow his name to be used.

Lawlessness in Oklahoma.
GUTHRIE, O. T., July 24.—Governor Renfrow has received a telegram from a citizen of Enid declaring that the United States marshals were violating the organic act of the territory in arresting citizens, denying them a hearing, and spiritng them away. While an unlawful organization at North Towh threatens to burn the city.

Armor Plate Investigation.
WASHINGTON, July 24.—Chairman Frick of the Carnegie's steel works was before the naval committee armor plate investigation today. He stated that over 3,000,000 tons of steel the output was only 5,000 tons was armor plate. The penalty levied by the naval department be regarded as unjust, as was also the president's decision. If the government inspectors had done their duty there would have been no trouble said Frick. I knew they were there to see the work properly done and depended on them doing it.

A Perfect Banking System With a Hole in It.

SAN FRANCISCO, July 24.—By his own confession, Wm. R. Melville's stealings from the bank of California, will amount to at least \$34,000, stolen during the past thirteen years. The officials were astounded that it was possible such defalcation could be made and not be discovered under such a perfect banking system that they have in use.

A New Labor Organization Launched Today.

SEVENTY INDIOTMENTS

Found Against Strikers at Colorado Springs, Colorado.

CHICAGO, Ill., July 24.—The American Labor Union designed to gather in the whole mass of laborers in one organization was launched today. It is said to be under the control of the A. R. U. leaders.

COLORADO SPRINGS, Colo., July 24.—The Evening Telegraph, the principal daily here, announces in an article today that it begins at once to use the Associated Press dispatches and points out the benefit accruing from such change.

CHICAGO, July 24.—During the trial of Debs et al for contempt today District Attorney Milchrist called attention to the act of 1890, known as the anti-trust law. The district attorney said that under this law the argument for the defense was void and falls to the ground.

CLOSING UP

The Lines of the Law Tightening About Worden.

ASIATIC CHOLERA IS

Reported in Carthage, Illinois—Cannon Ball Trains Collide.

WOODLAND, Cal., July 24.—The evidence this morning tended to draw the law closer about Worden and Hatch, who are charged with train wrecking, but no one else was implicated. The counsel displayed their natural antipathies for each other in a wordy war during the examination of witnesses. Detective Burke refused to give the name of the person who gave him the description of Worden.

Among the Strikers.

SAN FRANCISCO, Cal., July 23.—The railroad strike in California presents absolutely no new features. Nearly all the Southern Pacific trains are running pretty regular. The A. R. U. men at Oakland insist, however, that the strike is still on with all its force, and that they are bound to win or be taken back on their own terms. In Sacramento the strikers continue to quarrel among themselves, trouble having arisen over a public meeting the strikers held, at which a majority of those attending voted to return to work and so notified the railroad company. A large number of the strikers at Sacramento claim that the action was without authority. They insist that the strike is still on at that point. As the strikers at Dunsmuir are said to threaten trouble, a company of state militia from Woodland has been ordered there. It is conceded that there is no longer danger of serious trouble at Oakland.

Mighty is the Truth!

And it will prevail. Against underhand competition and spurious imitation, the genuine efficacy of the great national tonic, Hostetter's Stomach Bitters, always has and always will prevail. The public recognizes it everywhere as the chief preventive of malaria, and a reliable specific for dyspepsia, constipation, nervousness, rheumatism, kidney trouble, biliousness and loss of appetite. Efforts made by irresponsible dealers to compete with it by indirect means have and will continue to fall upon the heads, and it may be added, the pockets of those making them. Through the length and breadth of the American continent it is the acknowledged household remedy, reliable and prompt. It relies upon facts, upon public experience, and upon the emphatic commendation of the medical fraternity.

Simmons Liver Regulator, bear in mind, is not an experiment. It is endorsed by thousands.

THE G. O. P. ON SILVER.

In National Convention they Declare for the White Metal.

They Also Adopt a Resolution Favoring Statehood for Arizona, Utah and New Mexico.

"We believe in the use of gold and silver as money metals. Maintained at perfect parity and interconvertibility. We do not believe that there will be a permanent return of prosperity to our country until the full use and highest position of silver shall be restored and we favor such legislation as will bring about this result.

"We are most heartily in favor of the prompt admission into the Union of the territories of Utah, New Mexico, Arizona and Oklahoma, and we condemn the policy of the democratic administration in excluding and depriving them of their rights."

Hon. George Christ has just returned from attending the national republican league at Denver, in session the last days of June. Mr. Christ says: "The session was strictly national affair, and not western as might be thought from some of the resolutions adopted. Colonel Herring of Tombstone and myself attended. I had Col. Herring named on the committee on resolutions, and he did magnificent work for silver there. He made a very able speech to the committee, and one that commanded deep attention. The silver resolutions adopted were the very strongest and best, and it is my opinion that by election time the whole party will be converted to silver and get another rousing silver plank in the nominating convention."

"The western men did noble work for silver with that committee. They stood with them from 8 o'clock at night till 5 in the morning. The man, a gold bug from Wall street, a rank gold man, was convinced that silver had not been used right and finally voted for the silver plank."

"The outlook for silver at the hands of the republican party is very bright."

STATEHOOD HOME OTHER SESSION.

"I was talking with Senator Dubois, of Idaho, a great friend of Arizona. I asked him what he thought of statehood for Arizona, he told me that he did not think it possible to get the statehood bill for this territory through the present session of congress. The democrats are scared," he said, "and fear to put it through. They are fearful that the territory might go republican, thus giving two more republican senators against them."

What the republican party will do on its restoration is foreboded by the resolution for statehood, as foregoing.

COMMENTS ON THE SCHOOL.

The receipts during the school year just ended were \$119,000 less than last year, and the increase in the school attendance was 129, yet not a single district lapsed during the year.

The increase in the school census was 250.

Eleven teachers were engaged in Tucson teaching an average of 38 pupils each and one-half months. Thirty teachers outside of Tucson taught an average of 35 pupils five months and three weeks. Four hundred and forty-four children attended the private schools of the county, particularly at Tucson and Nogales.

The per capita cost based on the en-

rollment for each pupil was \$13.78. Based on an average daily attendance, it was \$22.85.

Taking the report as a whole it is seen that the school of this county have been managed economically and efficiently.

Cheaper to Pay for the Paper.

A news paper in Ohio recently brought suit against forty-three men who would not pay their subscriptions, and obtained a judgement in each case for the amount of each claim. Of these twenty-eight made affidavits that they owned no more than the law allowed, thus preventing attachment. Then under the decision of the Supreme Court they were arrested for petit larceny and bound over in the sum of \$300 each. All but six went to jail. The new postal law makes it larceny to take a paper and refuse to pay for it.
